(Newsbriefs continued)

Five UCSF researchers have been awarded grants from the American Heart Association. Richard D. Bland, assistant professor, Pediatrics and Julian Borejdo, assistant research biophysicist, were named "established investigators." Both are staff members of CVRI. This five-year stipend award is given to young researchers and physicians to conduct independent research projects.

Martin J. Lipton, associate professor, Radiology, Morton J. Cowan, assistant professor, Pediatrics and John V. Tyberg, assistant professor, Medicine and Physiology were named as recipients of Grants-in-Aid national research awards. Lipton and Tyberg are also associated with CVRI. The Grants-in-Aid, given on the basis of scientific excellence, are awarded for one to three years to fund research projects related to cardiovascular function and disease which are conducted in non-profit institutions.

The Personnel Department is sponsoring a Job Fair on Thursday, January 17, from 10 a.m. to 6 p.m. at the Mission Cultural Center, 2868 Mission Street.

On hand will be representatives from Personnel discussing job opportunities at UCSF. Department supervisors will talk about actual job openings in their departments. For further information call x1645.

Volume 6 Number 1, January 1-18, 1980

TODAY & TOMORROW

Health Hazard Appraisals will be offered by the Office of Public Service Programs at a cost of $5 each to the first 500 employees who register.

Health Hazard Appraisal is a computer analysis that defines the personal risk of an individual by providing a breakdown of the causes and of the interventions that may reduce the risk.

Participation in the project requires completing a lifestyle and medical history questionnaire; attending a 20-minute screening session, where blood pressure, and height/weight are measured and blood is drawn for cholesterol analysis; and attending a one-hour results session. Analysis is done by the Department of Epidemiology and International Health. All information will be kept confidential.

Registration will be open to the first 500 employees who contact Linda Civitello, project coordinator, at x3206, during the weeks of January 7-18.

J. Richard Baringer, vice chairman, department of Neurology and chief, Neurology Service at Veterans Administration Medical Center, S.F. has been named the recipient of the annual J. Elliott Royer Award.

The honor, which includes a cash award of $15,000, is presented by the UC Regents to the San Francisco or East Bay physician who has made the "most significant" contribution to psychiatry and neurology during the previous year.

Baringer's major research contributions have been in the field of slow virus diseases of the nervous system, including a substantial body of work on herpes simplex infections. He is recognized as an international authority on the biology of herpes virus infections, as well as their diagnosis and treatment. He also has conducted extensive investigations in measles virus, mumps virus and the scrapie agent.

NEWS BRIEFS

The Fourth Annual Chauncey D. Leake Lecturer is Sidney Udenfriend, Ph.D., who will speak on Wednesday, January 9, at 3 p.m., in Cole Hall. Udnefriend will speak on "A Picomole Chemistry of Proteins and Peptides: Application to the Biochemistry of Opioid Peptides."

The director of the Roche Institute of Molecular Biology, Nutley N.J., Udenfriend is known internationally for his contributions to biochemical and molecular pharmacology. He is the author of widely known books dealing with florescence assay in biology and medicine.

The lecture series honors the late Chauncey D. Leake, Ph.D., who established the Department of Pharmacology.

The newly constituted UCSF "Mary Morrow Prize for Excellence in Scientific Writing" will be awarded in the late spring of 1980 for the best example of a well-written manuscript in the health sciences.

The $500 prize, jointly sponsored by the Department of Medicine and CVRI, is in memory of Mary Morrow, who died in May. She worked at UCSF for 24 years, first as editor in the Department of Medicine, and later as lecturer in scientific writing in CVRI. Principal requirement is that the applicant was or is in a training capacity at UCSF (student, postdoctoral student, or postdoctoral scholar) while the work was done.

Those wishing to submit manuscripts for consideration should write the Mary Morrow Prize Committee, 1315 M, or call x2013.

Deadline for submitting entries is March 1.

A range-adjustment of one-half step (approximately 2½%) was approved by President Saxon's office for clerical/administrative and related groups. The increases are posted in the Medical Science lobby Personnel Office display case, and will be reflected in the February 1 paychecks. For further information call x2939.

The newly remodeled auditorium at Langley Porter Psychiatric Institute (LPPI), a research, teaching, and patient care facility, was dedicated on December 19.

The renovation was made possible by a $150,000 challenge grant from the Kresge Foundation of Troy, Michigan. The grant was also used to create a LPPI Learning Resource Center for staff, trainees, Bay Area professionals, and members of the general public with an interest in mental health.

A highlight of the dedication was the unveiling of an oil portrait of Alexander Simon, professor emeritus, Psychiatry. Simon served as director from 1956 to 1974.

The Learning Resource Center will enable LPPI to better fulfill its educational obligation to mental health professionals and the general community, according to Robert S. Wallerstein, chairman of the Department of Psychiatry and LPPI director.

Operation Crossroads Africa, Inc., a non-profit organization focusing on international development and educational exchange, actively seeks faculty, professionals, and students, in medicine, nursing, and health fields to participate in 8-week summer medical team projects in Africa. Located in rural communities, projects focus on tropical medicine, preventive medicine, public health, epidemiology, nutrition, and maternity and child care.

Projects are conducted by the Ministries of Health of various African countries in conjunction with WHO. Both leader and volunteer positions are open. Persons interested in participating must apply immediately by contacting Crossroads Africa, 150-5th Ave., N.Y., N.Y. 10011, (212) 242-8550.

The Hospitals and Clinics Evening Neighborhood Shuttle will be discontinued on Monday, January 7. Service will be provided through Sunday, January 6. Persons driving to campus during the evening are encouraged to purchase "N" decals, which allow parking in the permit or public garage from 2:30 p.m. to 8 a.m. Monday-Friday, and all day Saturdays, Sundays, and holidays.

There is no waiting list for "N" decals. Applications may be picked up at the Parking Office, H Level, Millberry Garage. The monthly fee is $8.

"L" decals, costing $1 a month, can be used in the public garage after 5 p.m. weekdays and all day Saturdays, Sundays and holidays.

To improve safety, an individual monitoring service has been set up by the Campus Police. Persons wishing to be under TV surveillance during the hours of darkness, while entering and leaving Millberry Union Garage, "H" Level, should request it upon entering the garage by using the intercom system next to the Cardtrol machine, or by calling x1414 before leaving Moffitt Lobby.

A new series of free education classes for people with the most common form of arthritis, osteoarthritis, will begin Monday, January 21, at the Rosalind Russell Medical Research Center for Arthritis.

The classes help people understand their disease, sometimes called degenerative joint disease, and live their lives more fully. Patients attend two classes on consecutive Mondays, from 11 a.m. to 1 p.m., on the fifth floor of the Ambulatory Care Building. Family members are invited to attend.

The series on osteoarthritis, as well as a similar program on rheumatoid arthritis will continue for at least six months. For further information call x1192.

A new Parkinson's Disease Center designed to serve as an information and referral clinic for patients, their families and the community, has opened on the eighth floor of the Ambulatory Care Building. Objectives of the center are to provide consultation and diagnostic facilities for patients suffering from or suspected of having Parkinsonism. For further information call x4862.

UC President David Saxon is co-chairman and Chancellor Sooy is a member of the local advisory committee for the 146th national meeting of the American Association for the Advancement of Science (AAAS) held in San Francisco, January 3-8. In addition to the scientific sessions, there will be free public lectures held daily at the Hilton, S.F., the main headquarters for the sessions. The public programs include The International Contest for Technology Superiority; Is the Inwardness of Science Extraneous to its History?; RIA-A Serendipitous Tool for Biology and Medicine; Science: The New Model; Reflections on Einstein's World; The Science of Communication and *Science Magazine;* Science: Our Common Heritage; Cyrano, Physics and Possibly Aristotle; and Science, Technology, and Culture. Dedication and Open House for the new UCSF Community Dental Clinic at SFGH will be Saturday, January 12, 11 a.m. to 2 p.m., at 22nd Street and Potrero Avenue.

Dedication ceremonies include a keynote address by Assemblyman Art Agnos in Carr Auditorium on 22nd Street just east of Potrero. Tours of the clinic and dental health demonstrations will follow. The public is invited.

The new clinic is the second of two facilities offering a new source of dental care for Bay Area residents. The other, dedicated recently, is the UCSF Community Dental Clinic at 100 Buchanan Street.

The 1980 Willard C. Fleming Memorial Lecturer is Samuel Dreizen, an internationally recognized expert on nutrition in oral health and disease. He will present a continuing education course, "Nutrition in Oral Health and Disease," on Friday, January 25, from 8:30 a.m. to 4:30 p.m., at the Holiday Inn, 1500 Van Ness Avenue, S.F.

Dreizen is professor and chairman of the Department of Dental Oncology and professor of Pathology, Dental Branch, University of Texas.

The course is sponsored by the School of Dentistry and the Northern California Section of the American College of Dentists.

This annual lectureship honors the late Willard C. Fleming, who served as dean of the School of Dentistry for 27 years until his retirement in 1965. For further information call x1101.
